#### DAUGHTERS' COLLEGE, HARRODSBURG, KY.

We have determined to reorganize our School for Young Ladies, and hereafter to concentrate our labors within the limits of a few select classes.

This we feel impelled to do for several reasons:

1. We cannot, without the erection of a mammoth establishment, accommodate the annually increasing patronage of the school. This we feel unwilling, at present, to undertake.

2. We desire to make our course of study more varied, extensive, and thorough; to devote more attention to the healthful development of mind and heart, and the formation of character.

3. We desire to relieve ourselves of the distracting annoyances of a multitude, and at the same time to surround our students with the more gen-

ing annoyances of a multitude, and at the same time to surround our students with the more gen-ial influence of home-life. We have some regard, also, to the enlightened opinions of an advancing age, which call for a higher, purer, and more cul-tivating regime for our daughters.

4. We are not satisfied merely to oversee our school; we wish to bring each pupil at all times under our own immediate eye and personal influ-ence. We wish to render our own labor more pro-ductive, by bringing our experience and skill to

ductive, by bringing our experience and skill to bear directly upon every member of our class.

5. In fine, though large public schools have their advantages, yet we feel, as educators and as Christians, that it would be better for humanity and more acceptable to God, to educate well, than to neutralize our influence by attempting to educate eutralize our influence by attempting to educate We propose, therefore, to limit our classes after

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vittated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disand filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the con-stitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon

their children." Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous com-plaints, but they have far less power to withstand the attacks of other diseases; conse quently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or

are aggravated by the same cause. One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and Skin Diseases, St. Anthony's Fire, Rose, or Erysipelas, Pimples, Pustules, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM RHEUMATISM, SYPHILITIC and MERCURIAL DIS EASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIA TED OR IMPURE Brood. Mr. Breckinridge's Speech.

We have read with much attention the speech delivered by Mr. Breckinridge at Lexington, on the 5th inst. We cannot say that we are disappointed in this elaborate effort of the candidate of a sinking party, for we did not expect much. Situated as Mr. Breckinridge was; running as a unionist in one section of the country, as a disunionist in another; a strict non-interventionist in some States, and the advocate of a slave code in others-it was impossible for him to take any decided ground or make any pledges for the future that would not seriously injure his prospects in some of the States. As an effort to talk a long time and say nothing, it is eminently successful. As an earnest appeal to personal and political friends it will doubtless have its effect, but as an exponent of the great and vital issues of the day; as a vindication of his party from the great political crime with which it Court House, in this city, on Monday evenstands charged, it is a decided and a humilinting failure.

### HOSTETTER'S STOMACH BITTERS.

The proprietors and manufacturers of HOSTETTER'S CELEBRATED STOMACH BIT TERS can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a reputation heretofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or blazoning puffery. The consumption of Hostetter's Stomach Bitters for the last year amounted to over a half-million bottles, and from its manifest steady increase in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare medicinal properties contained in the preparation, and the sanction of the most prominent physicians in those sections of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give testimonials to its acy in all cases of stomachic derangements and the diseases resulting therefrom.

This is not a temporary popularity, obtained by extraordinary efforts in the way of trumpeting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is destined to be as enduring as time itself.

Hostetter's Stomach Bitters have proved

a Godsend to regions where fever and ague and various other bilious complaints have counted their victims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for the Dyspepsia and like diseases, is to the proprietors a source of unalloyed pleasure. It removes all morbid matter from the stomach, purifies the blood, and imparts renewed vitality to the nervous system, giving it that tone and energy indispensable for the restoration of health. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them to a condition essential to the healthy discharge of the functions of nature.

Elderly persons may use the Bitters daily as per directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic, and rejuvenating generally. We have the evi-dence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach derangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their cares are so harassing that many of them sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear of body and mind is generally aggravated. Here, shen, is a necessity for a stimulant to recuperate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the Bitters to all other invigora-tors that receive the endorsement of physicians, because it is agreeable to the taste as well as certain to give a permanent increase of bodily strength.

All those persons, to whom we have particu larly referred above, to wit: sufferers from fever and ague, caused by malaria, diarrheea, dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids, persons of sedentary occupation, and nursing mothers, will consult their own physical welfare by giving to Hos-tetter's Celebrated Stomach Bitters a trial.

CAUTION .- We caution the public against using any of the many imitations or counter feits, but ask for Hostetter's Celebrated Stomach Bitters, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the

The Cheapest, most Brilliant, and most Convenient Artificial Light in the World! THE Vesper Gas Light has won for itself a reputation for elegance, economy, safety, and simplicity far beyond any other artificial light. The Vesper Gas flame and fixtures precisely resemble in form those of coal gas; but in brilliancy and purity of light it possesses a decided advantage over even Louisville coal gas. It requires no chimney; there is no need of daily trimming of wick; and the construction of the fixture is so simple that it is not liable to get out of order, and a child can manage it readily. The gas burned in a child can manage it readily. The gas burned in the Vesper fixtures is generated from pure coa oil, without any admixture of alcohol or other foreign ingredient. It is entirely free from odor friends.
